To Whom It May Concern:

This letter serves as confirmation that we have received an application from Bhubesi Fire Projects for the certification of their facilities against the ISO 9001: 2008 Standard.

The stage 1 & 2 audits have been scheduled for May 2011.

The ROS Group consists of a variety of registrar brands, including Registrar of Standards (ROS), United Registrar of Systems (URS) and Global Registrars (GRI). In addition, other companies within the group have been set-up to support and supplement certification activities.

The group is a truly independent third party organization offering certification to a wide variety of standards and holds multiple accreditations.

The group is a premier organization within the certification arena and continually strives to provide fast and efficient services through technological innovations and staff training.

The assurance of the service offered by the ROS Group, regarding certification activities, is based on UKAS regulations and the subsequent monitoring activities. The International Accreditation Forum (IAF), have a direct input to the UKAS regulations.

For a full listing of our international offices, please visit the ROS-Group, PeopleCert & RABQSA websites.

If you require any additional information please do not hesitate to contact me.

J.J. van Tonder
